Professional Summary

Full Stack Developer with 1.5 years of experience building scalable B2B commerce platforms, payment integrations, webhook systems, and backend automation workflows. Skilled in JavaScript, TypeScript, React.js, Node.js, Express.js, PostgreSQL, MongoDB, and third-party integrations. Experienced in developing reliable systems for order processing, KYC onboarding, catalog management, and real-time data workflows.

Technical Skills

Languages: JavaScript ES6+, TypeScript, Java, SQL, HTML5, CSS3

Frontend: React.js, Next.js, React Native, Redux Toolkit, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT, Passport.js, WebSockets, Cron Jobs

Databases: PostgreSQL, MongoDB, Sequelize ORM

Integrations & Tools: Shopify API, Shopify Webhooks, Razorpay, Decentro KYC, Shiprocket, Firebase FCM, Git, GitHub, Postman, DBeaver

Professional Experience

EasyBiznus — B2B Commerce Platform

Nov 2024 – Present

Full Stack Developer — Intern to Full-Time

Mumbai, India

- Engineered a cron-driven Shopify batch processor with multi-store routing and exponential retry logic, reducing manual order reconciliation effort.
- Architected a Shopify webhook pipeline using HMAC-SHA256 verification, duplicate-event handling, and DB-level mutex locks to improve order-event reliability.
- Implemented Razorpay payment workflows including order creation, signature verification, automated refunds, and payment capture webhooks.
- Developed Decentro KYC onboarding for Aadhaar, PAN, GST, and bank verification with admin approval flows and Firebase push notifications.
- Built vendor bulk product upload systems supporting XLSX/CSV files with 25+ fields, async processing, automated SKU generation, and catalog approval workflows.
- Designed a PostgreSQL-backed custom job queue using Node.js EventEmitter, serial mutex locking, and retry handling for background tasks.

Projects

PriceWise — Real-time Price Tracker | Next.js, TypeScript, MongoDB, Node.js, Tailwind CSS | GitHub | Live

- Built a web scraper using Cheerio and Brightdata to track Amazon product prices and notify users about price changes.
- Optimized data workflows to model price history, identify lowest price points, and refresh product data using automated cron jobs.

Codeial — Real-time Social Platform | Node.js, Express.js, MongoDB, Socket.io | GitHub | Live

- Built a social media platform with posts, comments, authentication, real-time chat, email notifications, and responsive UI.
- Integrated optimistic updates and real-time polling to improve user interaction and reduce perceived loading delays.

Education

JD College of Engineering and Management

June 2022

B.Tech in Computer Science Engineering — CGPA: 9.02

Nagpur, India

Publication

- **Personal Assistance for Elderly People using Mobile Application** published in the International Journal of Scientific Research in Science and Technology. [Link](#)

Certifications

- Full Stack Web Development Certificate
- Back-End Web Development Certificate
- React & Redux Certificate
- Data Structures and Algorithms in Java Certificate
